THE STATE OF MONTANA
Department of State Lands
OFFICE OF REGISTER

Helena, Montana, December 1st, 1916.

Hon. S. V. Stewart,
Governor of Montana.

Dear Sir:

In accordance with the requirements of Section 4, Chapter 147, 1909 Session Laws, I have the honor of herewith submitting to you my report covering the transactions of the State Land Office for the fiscal year ending November 30, 1916. This report covers cash receipts, acres sold, leased and on hand, by counties and grants; amounts received from sales, rentals and royalties, and interest on deferred payments on land contracts; acres added to grant by new surveys and indemnity selections; the condition of the several land grant permanent funds and an estimate of the income, to accrue to the several land grant institutions, from their grants, during 1917. Copies of the principal tables of my 1915 report are also furnished for publication.

Receipts.

I am again able to report a large increase in cash receipts over those of any previous period. In the two years 1915-1916 the cash received amounted to \$2,877,242.18. The next largest receipts were those of 1913-1914, amounting to \$2,346,063.23; and the third largest were those for 1911-1912, amounting to \$2,002,664.49. The increase for the current period was \$531,178.95 over 1913-1914, and \$874,577.69 over 1911-1912. During the past four years the receipts have increased in volume 44 percent.

Land Sales.

Sales of lands in 1915-1916 amounted to 188,009.63 acres as compared with 126,639.51 acres in 1913-1914. The amount realized from land sales in 1915-1916 was \$2,951,062.78 as against \$1,970,480.08 in 1913-1914. The increased business in this line amounted to 61,370.12 acres and \$980,582.70

or an increase of close to 50 per cent, in both acres sold and selling price, over the preceding period. The average selling price of the land sold in 1915-1916 was \$15.70 per acre, as against an average of \$15.56 in 1913-1914, and \$15.34 in 1911-1912.

Town Lot Sales.

Eleven town lots were sold in 1915 for \$1,475.00, an average of \$134.09 per lot. No town lots were sold in 1916, but a number of small tracts of Fourth Class land were sold in that year, which totaled 37.97 acres for \$7,085.00, or an average of \$186.60 per acre.

Timber Sales.

Despite the high price fixed by law for state stumpage, as compared with the current prices of stumpage owned by individuals and the United States, the receipts from sales of timber have more than held their own during the past two years. The cash received from this source in 1915 amounted to \$18,896.62, and in 1916 to \$19,921.58, or a total for the period of \$38,818.20, as against \$27,378.18 for 1913-1914 and \$30,238.00 for 1911-1912.

Leases.

The year 1916 has been a busy one in all branches of this department, but particularly so in leasing. 2,271 leases were issued during the year, being 629 more than in the best preceding year (1911) and 976 more than the average of the three years 1913-1914-1915. During the year the rentals collected increased \$66,792.14 and the acres increased 298,-712.42 over 1915, which was the best previous year. The rentals collected in the period 1915-1916 were \$717,003.26 as against \$584,314.59 in 1913-1914, an increase of \$132,688,-67, or 23 per cent. The acres under lease November 30, 1916, were 2,992,810.88 at an annual rental of \$391,897.70, or an average of 13.1 cents per acre. Average rentals in previous years were 12.0 cents in 1915, 11.87 cents in 1914, 11.33 cents in 1912 and 10.2 cents in 1910.

Coal Leases.

These now number 13, with a minimum royalty of \$3,370.00 annually. The royalties collected in 1915-1916 were \$14,586,-46 as against \$6,248.76 in 1913-1914, and \$2,566.85 in 1911-1912. The bulk of the royalties now being received come from one operation, near Roundup, but development under

other leases is progressing with prospects of additional royalties in due time.

Oil and Gas Leases.

There are now in force 93 oil and gas leases, covering 85,277.95 acres. Operations of the lessees have not yet resulted in any producing wells and consequently no royalties have been collected. However, the amount of ground rent collected as a result of the issuance of these leases is the sum of \$8,805.00.

Land Grant Funds.

At the close of the fiscal year 1914, the permanent funds derived from the several land grants amounted to \$12,214,850.69. By the end of 1915 they had increased to \$13,053,-140.51 and they now total \$15,149,411.23. Table No. 10 shows how these funds are at present invested. Additional funds for investment will be derived, during the coming year, from the collection of about half a million dollars of deferred payments on land contracts and the cash payments on any sales made in 1917.

Expenses.

The expenses of the department for the year 1916 amount to \$49,196.25, classified in table No. 13 herewith, and apportioned as follows:

Register	\$ 19,178.55
State Land Agent	17,471.42
State Forester	12,546.28

This is the smallest total in the past four years, despite the large increase in both field and office work required to keep pace with the increased business of the department. That the office has been able to handle the volume of business so economically is largely due to the efficiency and zeal of its employees generally.

Timber Land Exchange.

During 1915 arrangements were concluded with the National Forest officials for the selection of two tracts of timber land, aggregating 106,360 acres, in exchange for a like number of acres of widely scattered, unsurveyed sections 16 and 36 lying within the different national forests. All preliminaries have been complied with by the state, and the necessary

authority for the exchange granted by the legislature, but final action by Congress has not yet been taken. The expense attached to the work, in 1915, was \$1,335.70 and was included in the 1915 expenses of this department.

Fees.

Fees collected in 1915 were \$4,599.84.

Fees collected in 1916 were \$8,087.20.

The total of fees collected and now on deposit with the State Treasurer in the "Land Office Expense Fund," is \$45,638.86, and I would again call attention to the advisability of legislation whereby the moneys collected for fees may be used in defraying the expenses of the department. At present there is no authority for such use, although the framers of the law creating the above mentioned fund evidently intended it for that purpose.

1917 Income.

An estimate of the income for the fiscal year 1917, which the several state institutions will derive from their land grants, has been made and same will be found in table No. 10 of this report.

Apportionment of School Income Fund.

The annual distribution of this fund, under Section 819 of the Revised Codes, was:

For 1915, \$632,085.00 to 126,417 children, at \$5.00 per capita

For 1916, \$713,291.25 to 135,865 children, at \$5.25 per capita.

The amount available for distribution in February, 1917, is now about \$780,000.00 and, in the absence of complete returns from the school census of 1916, we may estimate the number of school children on which the 1917 distribution will be based at 148,000, or an increase of more than 12,000 over last year. From this it would seem safe to estimate that the 1917 distribution will be at least \$5.25 per capita on the increased number of children participating. Table No. 11 herewith, shows the annual distributions of this fund heretofore made.

Respectfully submitted,

SDNEY MILLER,

Register.
